

# Five-Year Plan - 2001-2005 Missouri Rural Highway Corridors Proposed Improvements with Current Funding

Projects scheduled to be under contract.  
Does not include resurfacing or bridge rehabilitation.

October 31, 2000

## NOTE:

Projects on these corridors are expected to be built or work is expected to begin within the period 2001-2005 if certain criteria are met.

These include funding according to anticipated levels, meeting environmental requirements, resolving legal issues and obtaining concurrence of local planning organizations in project selection and funding.

Note for metro areas: Projects in St. Louis and Kansas City are determined by local governments on a four-year planning schedule. These areas select their own projects, which are not depicted on this map.

## 5-Year Plan Corridor Projects

- Two-Lane Corridor Segment
- Four-Lane Corridor Segment
- ▼ Spot Improvements

## Other Highways Comprising Missouri's Corridor System

- Two-Lane
- Four Lane
- No Improvements Scheduled

## 5-Year Plan Corridor Projects Awarded from 7/99 to 6/00

- Four-Lane Corridor Segment
- ▼ Spot Improvements

The following financial assumptions are the basis for determining what can be accomplished.

40%	Appropriation of TEA-21
1.5%	Federal Revenues Growth
2.11%	State Revenues Growth
3%	Administration Growth
4%	Maintenance Growth
3%	Construction Inflation/Project Growth
